## **DETAILED ACTION**

1. Subsequent to the notice that claims 24, 25, 34-49 were allowable, a review for non-statutory subject matter has necessitated new grounds of rejection. These new grounds of rejection follow below.

# Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:
  The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claim 34 is rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: The generation of the keys for multivariate encryption. The claim includes the steps of determining a representation for the keys, and key triples, but fails to disclose how these elements are used to generate the key as required by the claim.

## Claim Rejections - 35 USC § 101

4. Claims 24, 34, 39 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claimed subject matter is not limited to the technological arts. The claims should recite a computer implemented method or a hardware method.
